So Close, Yet So Far
New Research from the “Through the Gate” Transfer Study
Strengthening Student Success Conference
October 11, 2017

Darla Cooper, EdD

The RP Group
www.rpgroup.org

Mission
• Strengthen CCCs’ ability to gather, analyze, and act on information in order to enhance student equity and success

Services
• Research, evaluation, planning, professional development, and technical assistance—designed and conducted by CCC practitioners

Organization
• 501(c)3 with roots as membership organization
College Futures Foundation
www.collegefutures.org

Vision
• More graduates for a thriving California

Mission
• Removing barriers so more low-income and underrepresented students attain bachelor’s degrees
Today’s Presentation Outcomes

Participants will…

• Learn how many students are “at” or “near” the transfer gate
• Gain insights into barriers to progress and opportunities for increasing transfer
• Know the next steps in this transfer research
• Discover the importance of strategically recruiting and engaging advisors in major research initiatives
Think-Pair-Share

Reflect on the transfer landscape at your college…

• Which students are ready for transfer but don’t make it “through the gate?”
• What holds these students back from transferring?
Through the Gate
Transfer Study
A Fresh Take on the Transfer Challenge
Why Is Transfer Important?

**Economic Perspective**
- Strategy for addressing expected shortfall of 1M+ college graduates in CA by 2030 (Public Policy Institute of California, 2015)
- Cost-effective way to support baccalaureate completion (theoretically)

**Equity Perspective**
- Opportunity for underrepresented students to gain access to university, secure a baccalaureate, increase economic and social mobility
What Do We Know about Improving Transfer Success?

• Transfer velocity – we know who makes it to transfer
• Role transfer cultures play (CC and university perspectives)
• AD-T implementation
Through the Gate Aims to…

Identify individuals who have completed all or most of their transfer requirements, but who do not make it “through the gate” to university

Identify strategies for increasing transfer, boosting baccalaureate production, and enhancing students’ social and economic mobility—especially for underrepresented populations
Research Approach

Phase I: Mapping the Transfer Landscape
Quantitative research to better understand the transfer landscape focusing on students who met all or most of their requirements but have not transferred

Phase II: Getting Better Directions
Qualitative research to understand what factors impact these students’ journeys and how policy and practice might change to propel them through the gate
Mapping the Transfer Landscape
Phase I Findings
Phase I Research Questions

1. How many CCC students have met all or most of their transfer requirements, but have not yet transferred?

2. Who are these students and where do they reside?

3. What can we glean about possible opportunities to increase these students’ transfer success?
A Fresh Take on the Transfer Continuum

**Students At the Gate**
Achieved an AD-T or completed the requirements for transfer (≥60 transferable units, 2.0 GPA, and transferable English and math); have not yet transferred

**Transfer Achievers**
Made it through the gate by transferring to any university, with or without a degree

**Students Near the Gate**
Earned ≥60 transferable units with a 2.0 GPA, but missing transferable English and/or math; have not yet transferred

**Transfer Explorers**
Show behavioral intent to transfer by completing 12 – 44 transferable units within 6 years of first-time enrollment; have not yet transferred

**Momentum Students**
Demonstrate momentum toward a transfer goal by achieving 45 – 59 transferable units, and maintaining a 2.0 GPA; have not yet transferred
Nearly 2 million CCC students demonstrate behavioral intent to transfer.
Study Sample

- 875,630 CCC students
- Enrolled between 2010-2011 and 2014-2015
- Outcomes through spring 2016

Three subgroups:
1. Transfer Achievers (583,074)
2. Students At the Gate (135,557)
3. Students Near the Gate (156,999)
Transfer Achievers

• Two-thirds of sample achieved transfer
• Majority transferred without a degree or certificate (68.5%, \(n=399,635\))
Students At the Gate

- Nearly 136,000 stopped at the gate
- Over half of transfer-ready students left without a college credential
- More likely to be Latino—regardless of gender
Students Near the Gate

• Nearly 157,000 got near the gate
• 92% needed to complete math requirements in order to transfer
• Nearly half exited the system without a college credential
• Time is the enemy; students who did not transfer within a year of becoming transfer-ready were less likely to transition to university
Role of Gender, Race/Ethnicity, and Region

- 75% of African-American students who make it near or at the gate, made it through the gate (yet most do not make it near, at, or through the gate)
- Latino male students and Native-American female students were less likely to transfer
- Latino students were also more likely to earn an AD-T, but halt their transfer journey
- Inland Empire students were least likely to make it through the transfer gate
Small Group Discussion

Why don’t students who are at or near the gate transfer?

• What are some potential barriers?
• What are some potential barriers unique to certain groups and students in particular regions?
Getting Better Directions
Phase II Research
Phase II Research Questions

• **Why** do so many students who are close to achieving their transfer goal stop short of making this transition?

• **What can we do** to help students who are at or near the gate transfer?

• **What is holding back different student groups, and how can we help** them continue their journey?

• **What is impacting IE and CV students’ transfer progress, and what strategies can be pursued to increase their success?**
Phase II Approach

• Gather information from students themselves
• Secure insights to help refine existing strategies and inform new efforts to increase transfer for students who are at or near the gate
• Further explore the interplay between race, gender, and region in students’ transfer experience
• Analyze the role of other factors such as GPA, financial aid, and full-time enrollment in students’ pursuit of transfer
Next Steps

• Disseminate Phase I findings
• Reach out to 25 colleges to participate in Phase II student perspective research
• Launch Phase II research in spring 2018
Group Discussion

What do you want to learn from students who are at or near the gate?
Advisory Committee

Value and Role of Advisors
Advisor Value

• Have expertise in transfer research
• Represent the broad range of stakeholders
• Understand the Central Valley and Inland Empire student populations and their unique barriers
• Are positioned for action
Advisor Role

- Provide feedback on and contextualize research
- Support dissemination of and engagement with results
- Serve as agents of change
